

Important note about « Taxes »

Our site basically displays prices “exclusive of Taxes” for both WINES and TRANSPORT FEES for every nationalities and until the cart is completed with a choice of destination.

Then, depending on the destination of the wines, taxes will be calculated in your basket.

- ➔ *For a delivery to private customers within the E.U.: The VAT line will show the French “TVA” by 20% on both wines and transport.*

- ➔ *For export outside the E.U., the French TVA does NOT apply, however you will notice that this “TVA” line will not show ZERO.*

This is because this VAT line is used for the **Insurance** and/or **local taxes** added by the Customs of your country. It is composed as follows:

Insurance on the wines during freight (4,5% to the USA or 3,5% in the rest of the world)

+

eventual local TAX to be applied on the value of the wines entering your country.

In the USA, for example, since October 2019, an Administration Tax of 25% is claimed by the US Customs on French wines below 14% alcohol (all of our wines!)

On top of which some states will add other taxes:

- New Hampshire: 8% tax
- Alabama: 4 USD per case
